

Good news!

The I-91 Hartford Northbound bridge opened at 3 a.m. on Monday. The project team worked around the clock over the weekend to get the bridge open in time for Monday morning's commuter traffic. In the coming weeks, the contractor will continue to work on the project – installing guardrail, texturizing the concrete bridge deck and adding the final layer of roadway pavement as well as get ready to slide into place the Southbound bridge.

This week I-91 will have two travel lanes open in both directions. At times Route 5 will have alternating traffic between 9 a.m. and 3 p.m.

We'll send more details on upcoming work activities and schedule after the project team gets a good night's sleep.
